This location is accessible to people with disabilities.

What is happening?

The Massachusetts Department of Transportation (MassDOT) is converting all exit numbers on freeways to a milepost-based numbering system, per Federal Highway Administration (FHWA) requirement.

What does this mean?

Currently, interstates and freeways in Massachusetts utilize a sequential exit numbering method. The benefits to a milepost-based exit numbering system include driver friendly navigation, more accurate emergency response, national uniformity, and reduced maintenance costs.
